**Attachments:** KDH - IN KIND DISTRIBUTION INVENTORY[1].pdf

Hi Rob,

Plaintiff considers Iterative's withholding KDH's liquidation proceeds baseless, improper and in bad faith not only to KDH, as a former investor, but also to the remaining investors who will be paying for the continued litigation and increased damages out of their pockets.

We hereby request the immediate release of KDH's in-kind distribution, as calculated and redeemed by Defendants themselves as of April 28, 2020 – see attached. The remaining damages will be litigated in due course. Iterative's withholding of the admitted liquidation proceeds, which are subject to depreciation in value, may increase Plaintiff's damages significantly. This is especially alarming in light of the fund's liquidation, during which the proceeds must have been distributed.

Please confirm processing of the liquidation distribution per KDH's instructions by the end of this week.

Otherwise, Plaintiff will have to file an emergency court application.

Regards,  
Gleb
